

LIEBERSEW™

8700

LIEBERSEW™ 8700

We looked for two years to find a straight stitch machine from China we are proud to put our name on. It is an exact copy of a Juki high speed, self oiler with reverse. It will sew the finest dress or the heaviest blue jean. You can buy the LIEBERSEW at a considerable saving. Compare to Juki or Singer. You can buy a head only to replace your old machine or get it complete with a stand and motor. Parts are interchangeable with Juki or Singer.

Features:

- Extra high speed rotary hook, 5,500 stitches per minute.
- All parts including the sewing hook, are lubricated by a centrifugal pump. This eliminates the need for manual oiling.
- Reverse lever for backtacking up to 6 stitches per inch.
- Designed for medium weight materials.
- Great for any production work where high speed and or delicate detail sewing is required.

Specifications

Model Name	ZJ-8700N	
Needle size	16x231 DBx1(9-18)	
Bobbin	55623	
Bobbin case	52237	
Rotary hook	143342FG	
Standard presser foot	24983	
Type	For medium weight materials	
Max. sewing speed	5,500rpm	
Max. stitch length	5mm	
Needlebar stroke	30.7mm	
Lift of the presser foot	By hand lifter	5.5mm
	By knee lifter	13mm
Feed dog	4-row	
Hook	Automatic-lubricating full-rotary hook	
Lubrication	fully automatic	
Weight of the machine head	28kg / 61.74 lbs
