

We are supplying unique bagging machines in good reputation for the drycleaners not only in Korea, but also Japan and America during more than a decade.

“Over Head ” New Type Auto Bagger

SungjinNC : OH-70S

Save Space + Low Price !!

- It's the best model for the drycleaners to want more higher efficiency in the limited space.
- You could pass through under the machine, unlike the stand type machines.
- The machine has excellent cost performance compared to stand type machines.
- Overhead type Bagger which had been good reputations in Europe, America has been more stabilized by the specially designed slide rail.
